TOWARDS A CULTURE OF INNOVATION

“

SPARK IDEAS
FOR BUILDING
THE FUTURE
WE WANT AND THE
UNITED NATIONS
WE NEED.”

António Guterres,
Secretary-General of the United Nations

A photograph of Rosemary A. DiCarlo, Under-Secretary-General for Political and Peacebuilding Affairs, speaking at a conference. She is seated at a table with a microphone, wearing a grey blazer over a red top. The background is dark with blue and yellow light effects. The image is framed by a white border with a small white triangle in the top left corner.

“

To keep up with the scale and speed of innovation, DPPA has established a dedicated capacity to explore, pioneer and leverage new methodologies in support of its mandate delivery, including digital technologies, behavioural insights, immersive visualization, and other cross-cutting means.”

Rosemary A. DiCarlo,
Under-Secretary-General for Political and Peacebuilding Affairs
DPPA Strategic Plan 2020-2022

INNOVATING IS:

- ▶ Doing different things, and things differently
- ▶ Questioning why things are done the way they are
- ▶ Creating new value
- ▶ Staying relevant
- ▶ Futuring peace

FUNCTIONS OF THE DDPA INNOVATION CELL

NEW CONFLICT REALITIES AND CHALLENGES

As the Secretary-General elaborated in his remarks to the General Assembly on his priorities for 2020, new challenges to peace and security endanger 21st-century progress and imperil 21st-century possibilities.

• Geostrategic tensions & conflict fragmentation

• Existential climate crisis

• Deep and growing global mistrust

• Spread of misinformation & disinformation

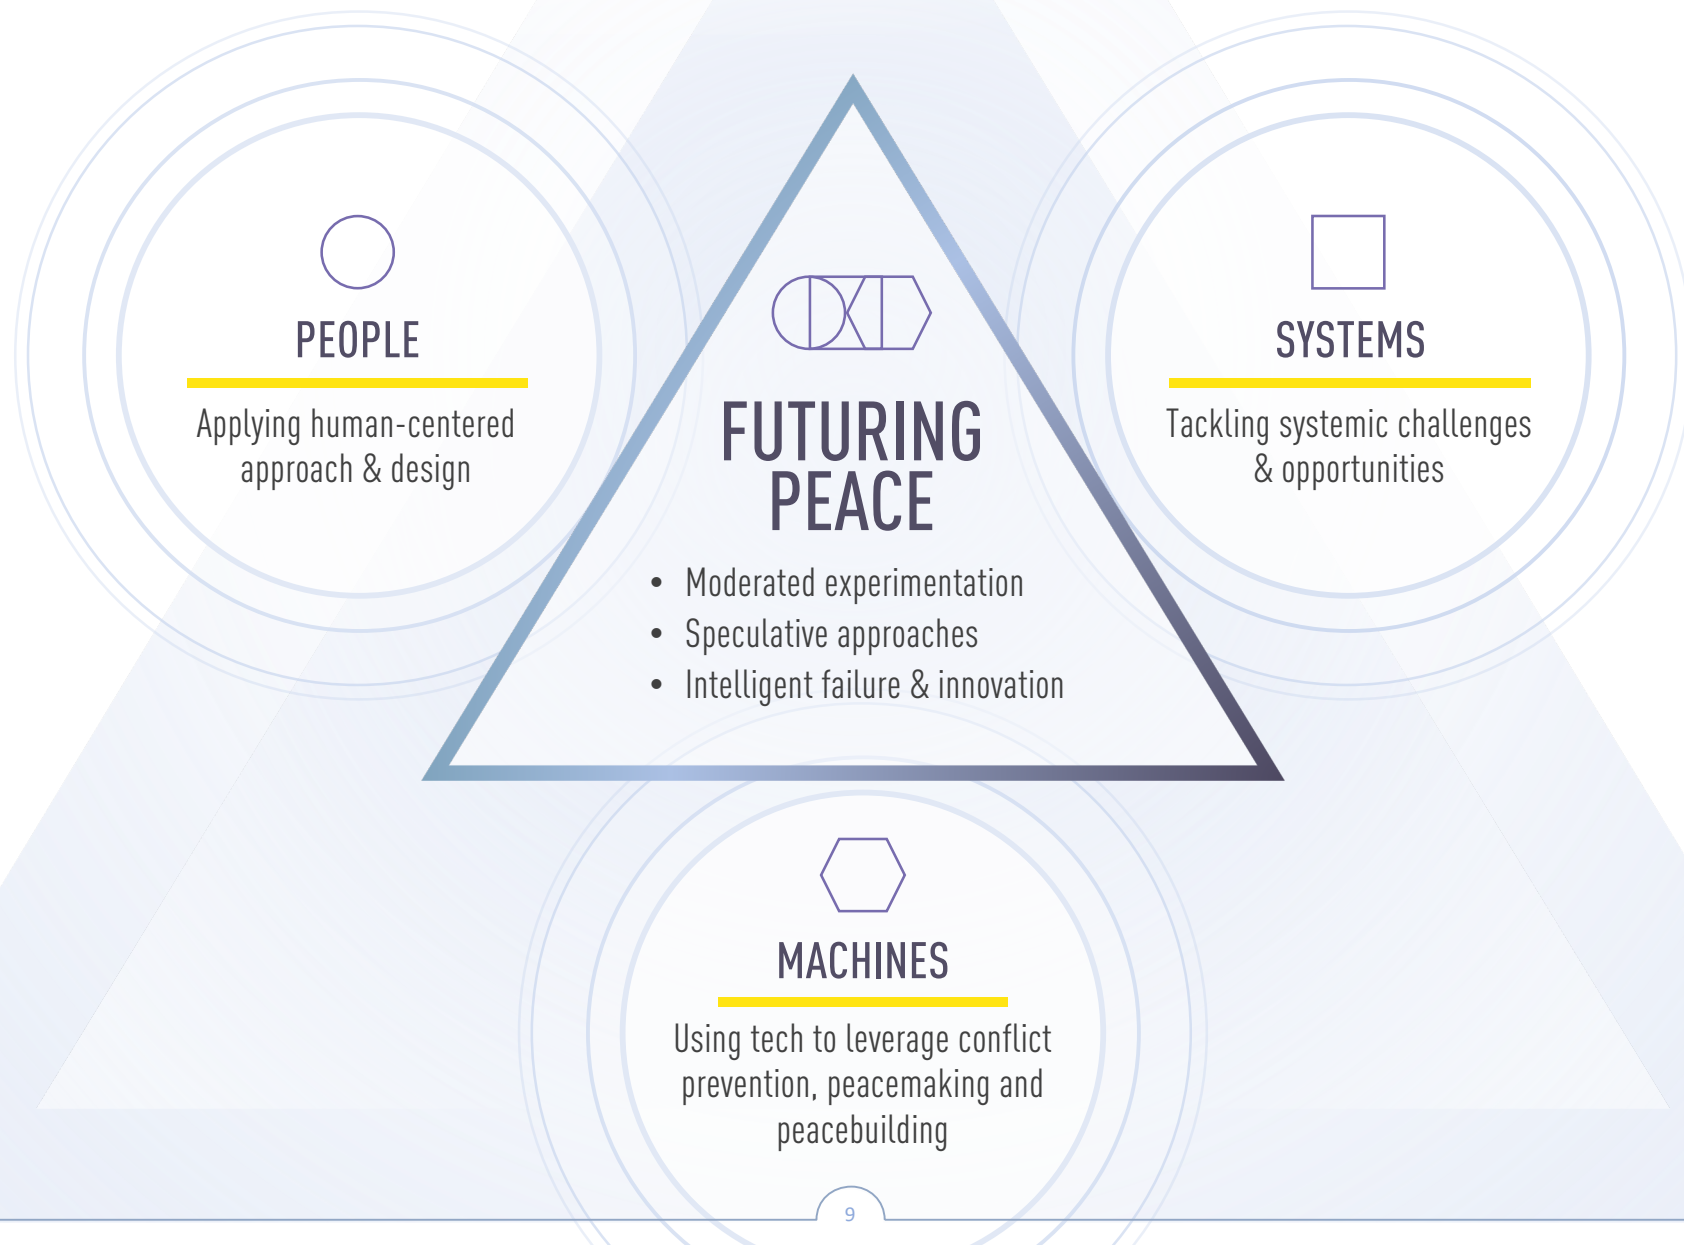

• Dark side of the digital world

• Fall-out of COVID-19

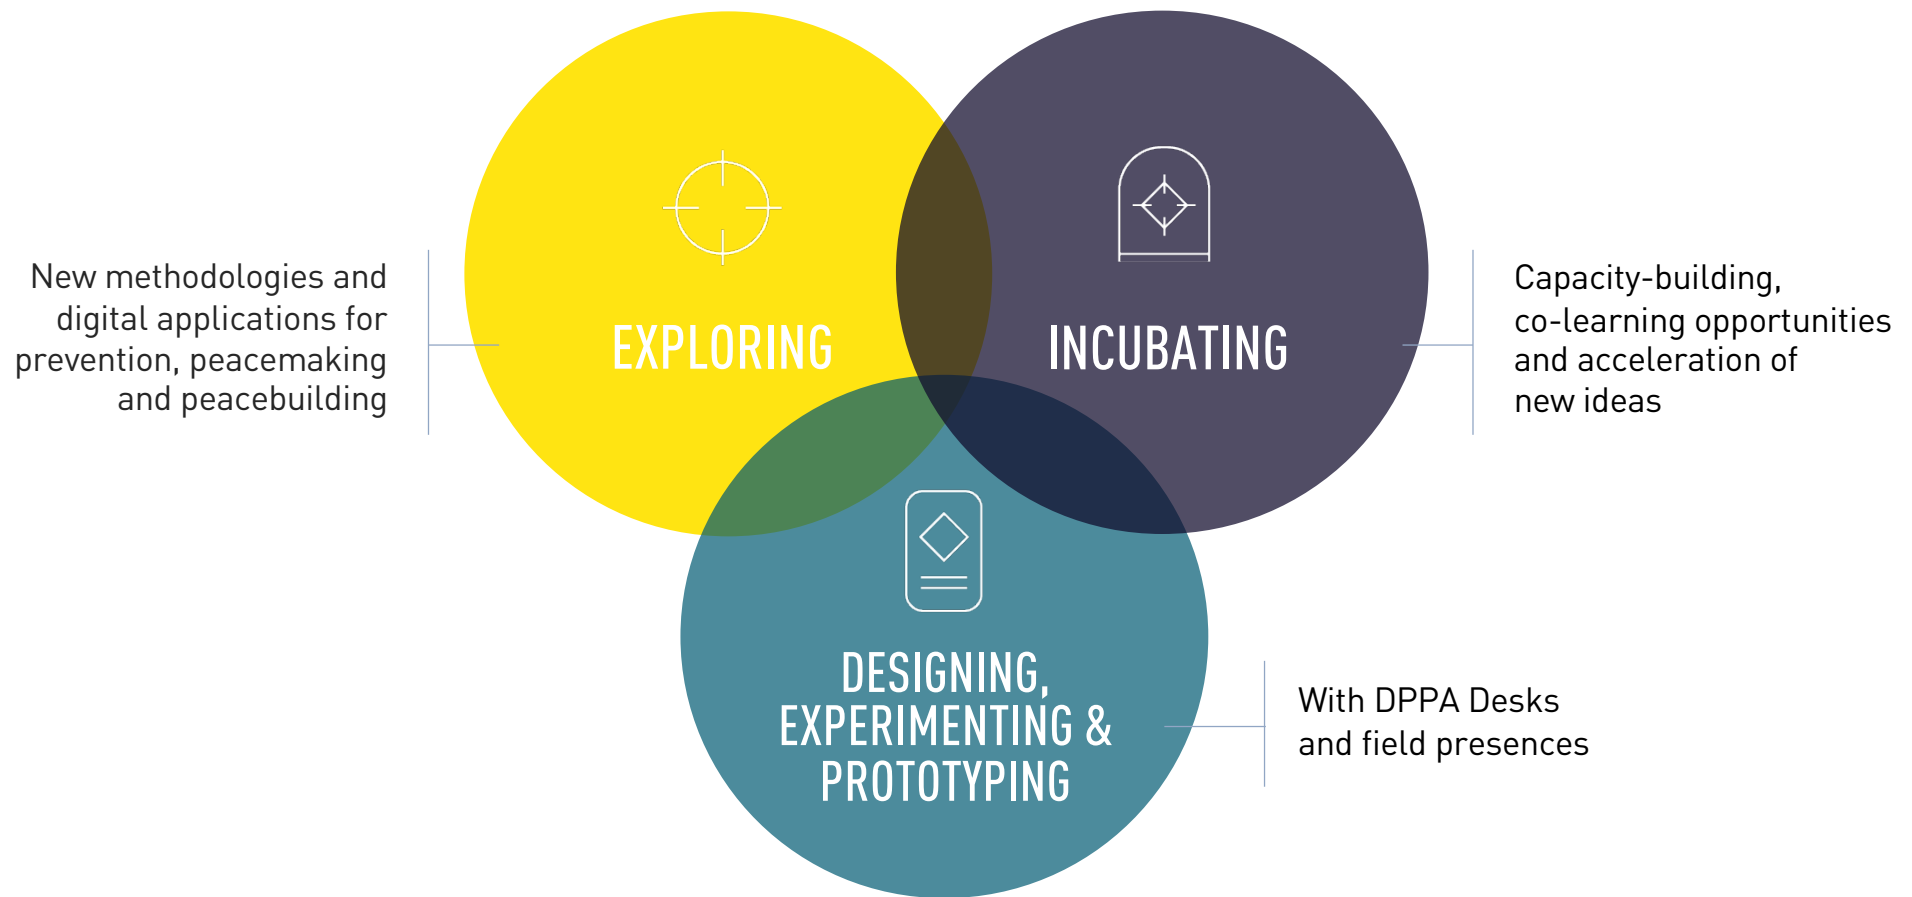

FUTURING PEACE

The Innovation Cell is a catalyst for futuring peace by leveraging new technologies, system theory and human-centered approaches.

FUNCTIONS OF DPPA INNOVATION CELL

The Innovation Cell is helping DPPA maintain dedicated space for exploration and experimentation of new methodologies in implementation of its mandate.

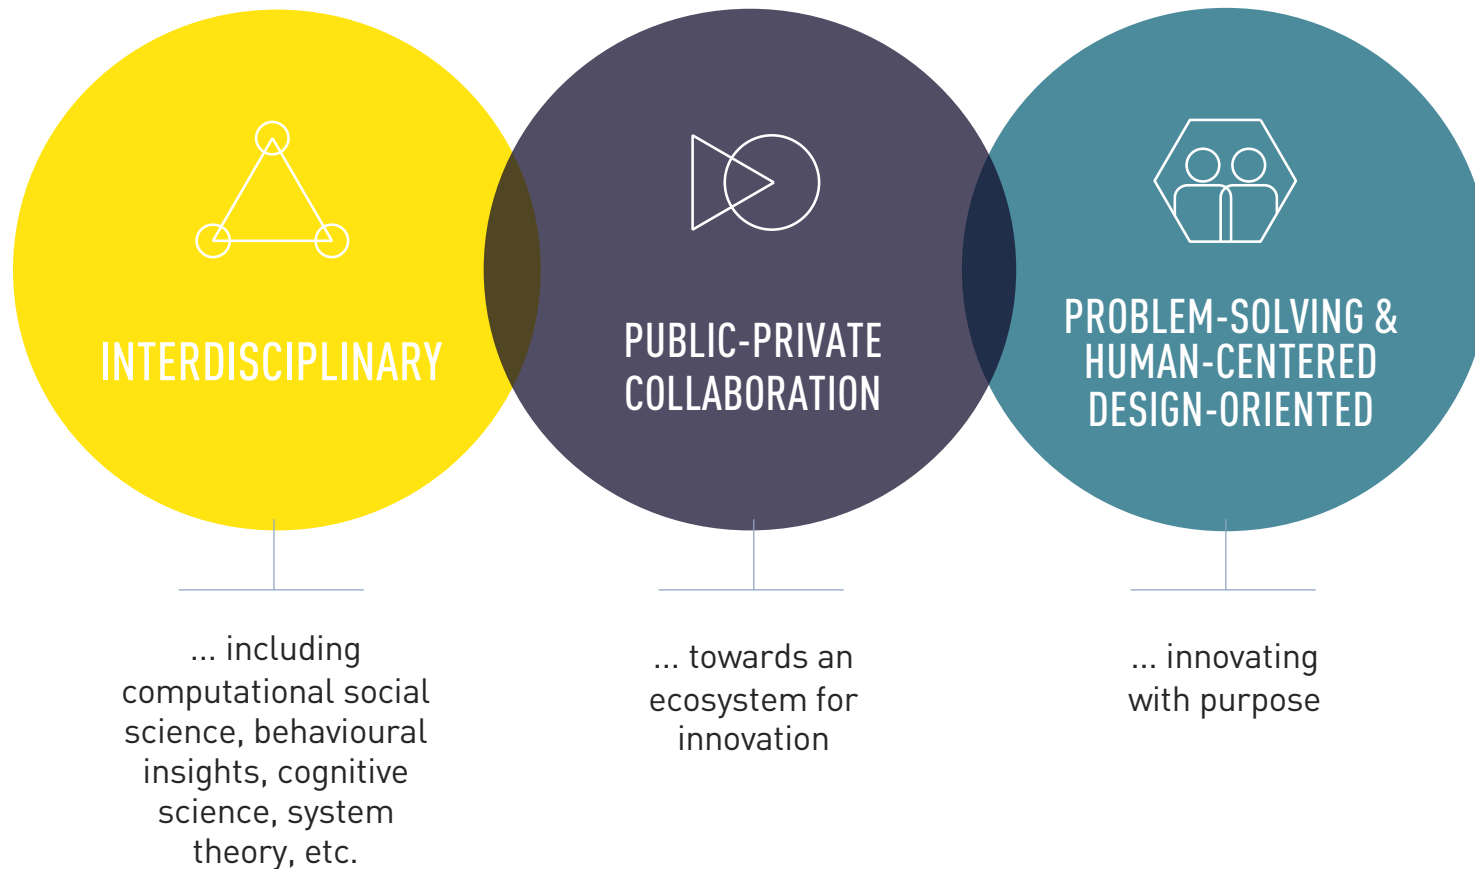

3

APPROACH & PRINCIPLES

APPROACH & PRINCIPLES

The Innovation Cell's work is based on partnerships and brings together multiple disciplines, driven by concrete use cases.

INTERDISCIPLINARY PERSPECTIVES

We see innovation as a broad and multifaceted field, nurtured by various cross-dimensional perspectives.

PILOT PROJECTS (EXAMPLES)

Innovation was part of DPPA's efforts long before the Innovation Cell was established. These are some of the new pilot projects:

AI-Powered Digital Focus Groups & Sentiment Analysis

Social media and big data analysis in support of peace mediation and dialogue efforts

Upgrading Briefings through Virtual & Augmented Reality

Engaging diplomatic experts and wider public through immersive experiences

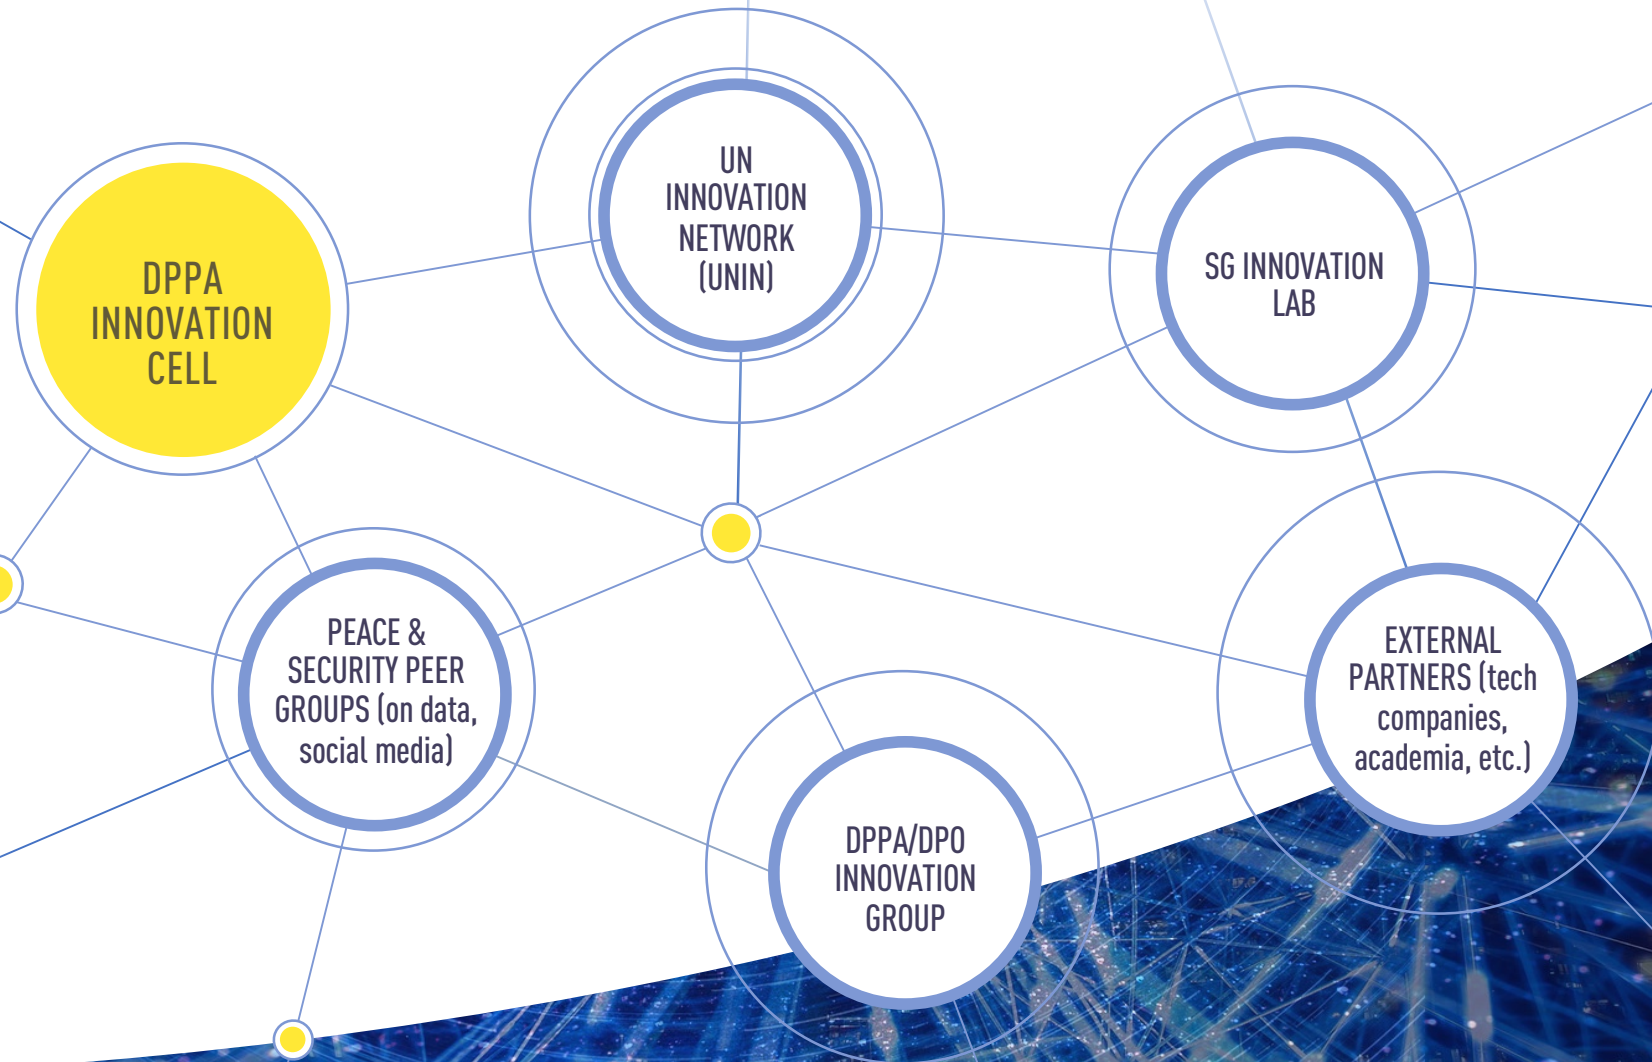

Remote Sensing & Conflict Prevention

Satellite imagery analysis and drone-enabled sensing combined with computer algorithms to address water and climate security issues

NUTURING INNOVATION ECOSYSTEMS

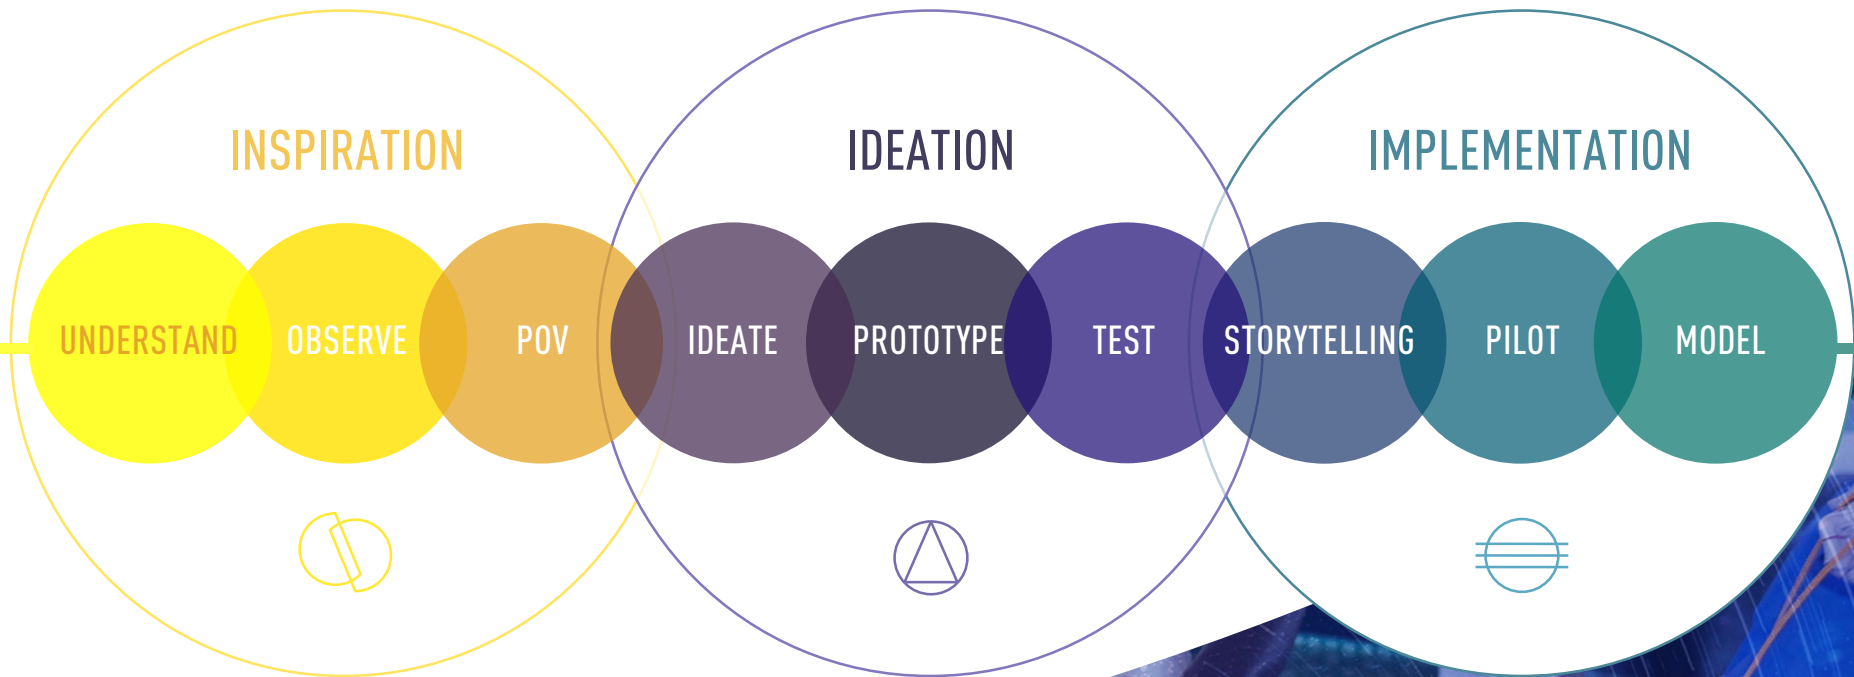

We maximize opportunities by contributing to, benefiting from and being part of the wider UN ecosystem of innovation entities.

INNOVATING WITH PURPOSE

We put design thinking at the heart of our project implementation to assure needs-based and human-centered innovation.

DESIGN THINKING PROCESS

4

STRATEGY & THEORY OF CHANGE

THEORY OF CHANGE

Innovation requires gradual and long-term investment to achieve transformative change: establishing the infrastructure; advancing staff skills; and scaling new approaches.

1 INSPIRE

- **New ways of doing business**
- **Pilot projects**
- Implemented ongoing DPPA innovation projects
- Solidified establishment of Innovation Cell
- Established physical "Innovation Space" for design thinking and ideation

2 BUILD

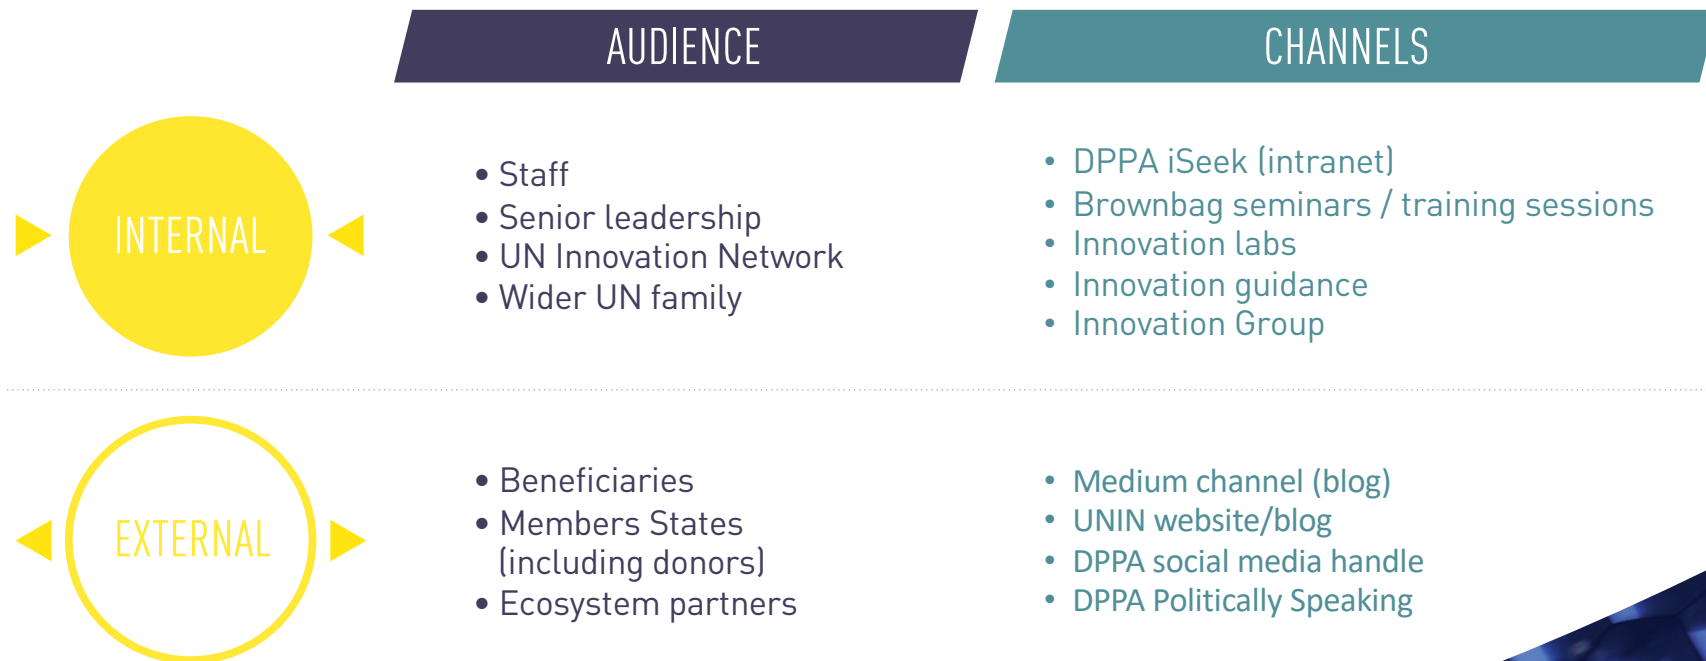

- **Culture of innovation**
- **Capacity of staff**
- Increased opportunity for learning and experimentation
- Expanded buy-in from decision-makers

3 GROW

- **Innovation at scale**
- **Sustainable change**
- Embedded and long-lived innovation
- Diversified partnerships with innovators and tech companies outside the UN system
- Scaled innovation projects in the field and transferable methodologies

COMMUNICATION

Innovation requires communication across the board to share lessons learnt, inspire new ideas, and forge partnerships.

5

MEASURING SUCCESS

HOW WE MEASURE SUCCESS

Monitoring and evaluating success and failures are key for us, understanding that innovation is an ongoing process.

RELEVANT

- ▶ New way or empirical approach to prevent or end violent conflict

ORIGINAL

- ▶ Doing different things and doing things differently

DESIRABLE

- ▶ Clear use-case, problem-definition based on needs

FEASIBLE

- ▶ Technically and organizationally doable

BENEFICIAL

- ▶ Helps the wider peace and security community

INTERDISCIPLINARY

- ▶ Draws on multiple disciplines

COLLABORATIVE

- ▶ Public-private partnerships considered, and regionally diverse

MEASURABLE

- ▶ End user-needs considered with baseline, specific targets and timeframe

SCALABLE

- ▶ Method is transparent and open source

SUSTAINABLE

- ▶ Maintenance and follow-up costs considered
